

ARCHANA SAMPATI

Hyderabad, Telangana, India

+91 9502719791 |  sampatiarchana2000@gmail.com

PROFESSIONAL SUMMARY

AI Developer with 2+ years of overall IT experience, including hands-on experience in Generative AI application development and software testing. Skilled in Python, FastAPI, PostgreSQL, OpenAI API Integration, Retrieval-Augmented Generation (RAG), Prompt Engineering, AI Chatbot Development, and REST API Development. Experienced in building AI-powered applications, backend services, and document question-answering systems using Large Language Models (LLMs). Strong understanding of API Testing, Agile methodologies, SDLC, STLC, and software quality assurance processes. Passionate about developing scalable AI solutions and intelligent applications that drive innovation and business value.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript (Basic)

Backend Technologies: FastAPI, REST API Development, JWT Authentication

Frontend Technologies: React.js (Basic), HTML5, CSS3

Databases: PostgreSQL, MySQL

Generative AI: OpenAI API Integration, Prompt Engineering, Retrieval-Augmented Generation (RAG), AI Chatbot Development, AI Agents, LLM Fundamentals, Document Question Answering, Semantic Search, Embeddings

Testing: Functional Testing, Regression Testing, Smoke Testing, API Testing, Manual Testing

Tools: Git, GitHub, Postman, VS Code, Jupyter Notebook, pgAdmin

Methodologies: Agile, SDLC, STLC

PROFESSIONAL EXPERIENCE

Junior AI Developer | Logiq Gen Private Limited

May 2025 – Present

- Developing AI-powered applications using Python, FastAPI, PostgreSQL, and OpenAI APIs.

- Building scalable REST APIs and backend services for Generative AI solutions.
- Designing and implementing Retrieval-Augmented Generation (RAG) workflows for document-based AI applications.
- Developing AI chatbots and intelligent assistants using OpenAI APIs and Prompt Engineering techniques.
- Managing PostgreSQL databases and backend application workflows.
- Performing debugging, testing, and performance optimization of AI applications.
- Collaborating with cross-functional teams to design, develop, and deploy AI-driven solutions.

Projects

RAG-Based AI Assistant

Tech Stack: Python, FastAPI, PostgreSQL, OpenAI API, RAG

- Developed a document-based AI assistant using Retrieval-Augmented Generation (RAG).
- Implemented document ingestion, retrieval, chunking, and context-aware response generation.
- Integrated OpenAI APIs for intelligent question-answering capabilities.
- Developed REST APIs for document upload, processing, and conversational interactions.
- Improved response relevance and accuracy through contextual information retrieval.
- Managed PostgreSQL database operations and application workflows.

AI Chatbot Application

Tech Stack: Python, FastAPI, PostgreSQL, OpenAI API, React.js

- Developed an AI-powered chatbot application using OpenAI APIs.
 - Built scalable backend APIs using FastAPI.
 - Implemented user authentication and session management functionality.
 - Managed chat history and user information using PostgreSQL.
 - Applied Prompt Engineering techniques to enhance chatbot response quality.
 - Supported frontend integration and API communication using React.js.
-

Software Engineer / Analyst | Capgemini Technology Services India Limited

March 2023 – FEB 2024

- Performed Functional Testing, Regression Testing, Smoke Testing, and API Testing for enterprise applications.
- Designed and executed test cases based on business requirements and functional specifications.
- Validated REST APIs using Postman and analyzed application workflows.
- Identified, documented, tracked, and reported software defects.
- Collaborated with developers and stakeholders to ensure software quality and timely defect resolution.
- Participated in Agile ceremonies including sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Supported release validation and software quality assurance activities.
- Contributed to defect analysis and software testing process improvements.

EDUCATION

Bachelor of Technology (B.Tech) – Electronics and Communication Engineering

Sri Indu College of Engineering and Technology | 2022
